Summary

UX/UI and Website Designer with 5 years of experience creating responsive, user-centered digital experiences for web and eCommerce platforms. Skilled in UX strategy, design systems, WordPress, and front-end development, with a focus on creating intuitive experiences that align user needs with business goals.

Experience

Sr. Website Designer

Nov 2024 - Present

FareHarbor

- Designed custom Premier websites and improved internal web design workflows by implementing new client discovery, collaboration, and QA processes across cross-functional teams.
- Created scalable UI design systems and detailed Figma handoff documentation, including typography, color, spacing, and reusable Gutenberg component guidelines for development and WCS teams.
- Researched modern web design trends and contributed to the growth of Gutenberg-based pattern libraries by creating reusable website components, design documentation, and workflow standards.

Sr. Website Designer

Feb 2023 - Oct 2023

Jogan Health Solutions

- Managed full website projects from kickoff to launch, leading client meetings, design, development, QA, and deployment of custom WordPress sites.
- Designed and built responsive WordPress websites handling UI/UX, content integration, and go-live support.
- Collaborated with clients, copywriters, and graphic designers to coordinate assets and deliver cohesive, user-focused websites.

Freelance Website Designer

May 2021 - Feb 2023

iroNori Studios

- Led website projects from design to launch for small businesses using WordPress, Shopify, and Figma.
- Designed responsive, user-friendly websites while improving usability, accessibility, and mobile experience.
